PURE SOLID WOOD

Our furniture is crafted from pure solid wood, making for a healthy living environment. That’s no surprise – after all, the trees come from healthy forests. First they grow for decades in sustainable forestry and then we prepare them with the greatest of care. We finish the wooden surfaces with pure natural oil. This retains all the beneficial characteristics of the wood for your home. The entire production process, from the tree to the finished furniture, is in our hands. This way we can guarantee that the manufacture of our solid wood furniture is environmentally friendly.

BENEFICIAL ROOM CLIMATE

Genuine, open-pored solid wood brings comfort and warmth into your home. It breathes, absorbs humidity, and then releases it again when the air is dry. This creates a noticeably more pleasant atmosphere in the room. Wood also has a natural anti-static effect and doesn’t attract dust.

SIMPLE DAY-TO-DAY CARE

By nature, wood is accustomed to all sorts of challenges and is extremely robust. This makes our furniture especially easy to care for. All you need for day-to-day cleaning is a dry or slightly moist cotton cloth.
QUALITY CRAFTSMANSHIP

We’ve been making furniture since 1959. You can feel this experience. Every piece of TEAM 7 furniture is unique: hand built in our workshop by experienced carpenters using traditional Austrian artisan craftsmanship. That is what guarantees the high quality of our products – together with our loving attention to detail, for example in the “painting with wood” approach we use to hand-match our cupboard fronts and table tops.

durable and of lasting value

We create not only furniture, but also values. Robust and durable, wood ensures that our furniture has a long life span. It therefore retains its expressiveness over the years and gains in value. No other material ages quite as gracefully as genuine solid wood.

3-layer technology

In our board factory we produce high-quality 3-layer boards that are extremely stable. This technology opens up unique possibilities for design and function.

DESIGN AND INNOVATION

We believe that sustainability begins with the design process. After all, people only want to hold on to things which bring them lasting enjoyment. That’s why our designs have a timeless beauty, which we combine with state-of-the-art technology. Our designers and developers work constantly to perfect innovations that ensure the highest level of ergonomic comfort. They have one aim above all: making your home even more pleasant and comfortable – for many years to come.
CUSTOM MADE

Our furniture is not produced for a warehouse, it is created in response to customer requests. Manufacturing exclusively made to order means we have maximum flexibility to realise your dream living space. Numerous furniture ranges in all living areas and the option to adjust heights, widths, and depths* to your requirements (with no extra charge) means that we can adapt our furniture specifically to your needs – we even produce custom-made designs.

*for shelf and furniture elements, except home entertainment and furniture elements with functional fittings.

INDIVIDUALLY PLANNED

Our consultants plan according to your ideas and spatial possibilities. Every single piece of furniture is designed in accordance with your wishes and perfectly reflects your individual needs. You can choose from a number of models and different types of wood as well as various materials and colours.

What’s your favourite colour?

Choose the exact colour you desire for all glass surfaces. The entire colour range of the NCS colours is available to you (surcharge applies).
and there is such a wide selection of styles, all our furniture lines can be combined in any way you wish and coordinated perfectly with each other.

We build solid wood furniture for all living areas and offer sophisticated solutions for open-plan layouts. The variety of planning options seems limitless! Because every order is individually custom made and there is such a wide selection of styles, all our furniture lines can be combined in any way you wish and coordinated perfectly with each other.

NATURE FASCINATES WITH ITS DIVERSITY. JUST LIKE OUR FURNITURE.

→ it’s a tree story.
tak table | wood type walnut, matt bronze frame and faï chair, wood type walnut, tartufo natural leather
You can find the video about our **tak** table with metal base frame on www.team7-design.com and on YouTube.

figs.: **tak** extendable table, 225 × 100 + 100 cm, wood type walnut, matt bronze frame. **lui** chair, wood type walnut, blue leather.

**tak**

A focus on the essentials determines the form and function of the **tak** table. Three simple intuitive hand movements are all it takes to extend **tak** by 50 or 100 cm to up to 350 cm.

**tak**’s strong but incredibly slender table top is made possible by our state-of-the-art 3-layer technology. Perfectly matched to the elegant metal base frame of the table, the **f1** cantilever chair with its graceful frame is the ideal partner in this sophisticated ensemble of table and chairs.

fig. above: **tak** extendable table, 200 × 100 + 100 cm, wood type oak white oil, frame with stainless steel finish. **f1** cantilever chair, medium grey leather, frame with stainless steel finish.

fig. left: **f1** cantilever chair, dark brown leather, glossy steel chrome-plated frame. **f1** cantilever chair with armrest, dark brown leather, matt steel chrome-plated frame.
Highest elegance, maximum comfort and perfect craftsmanship – the combination of the *tak* table and *lui* chair with swivel base promises nothing less.

*tak*’s uncompromisingly slender frame gives no hint of the hidden pull-out section, and allows maximum leg-room when seated. What makes this possible is the innovative extension technology, which is also the key to this table’s impressive stability.

*fig. above:* *tak* extendable table, 200 × 100 + 100 cm, wood type walnut, frame with stainless steel finish,

*fig. left:* *lui* chair, black leather, matt black aluminium swivel base

The key characteristic of the *lui* chair’s distinctive appearance is its comfortable seat shell, which nestles closely against your body to ensure premium comfort. And it always looks good – in any outfit, whether at the dining table or in the home office.

*fig. top, from l to r:* *lui* chair, wood type oak white oil, grey Softstrick Clara 797 fabric, glossy aluminium swivel base; wood type walnut, Clara 384 fabric; black leather; wood type oak white oil; wood type oak white oil, black natural leather;

*fig. left:* *lui* chair, wood type oak white oil, umbra natural leather

*fig. below:* *lui* chair, wood type walnut, Clara 384 fabric
mylon

The flowing, uninterrupted lines of the mylon chair make for harmonious pairing with a wide range of tables. The elegantly curved backrest and ergonomically shaped seat provide superior comfort – whether in pure solid wood or upholstered in fabric or leather – which goes far beyond that of an ordinary wooden chair.

fig. right: mylon wooden chair, wood type oak white oil | wood type oak white oil, Black leather

You can find the video about our tak table with wooden base frame at www.team7-design.com and on YouTube.

tak

The cool elegance of metal or the warmth of genuine solid wood: you have the choice with tak. Nothing need be sacrificed when it comes to appearance. Because the minimalist material thickness and the organic curves so typical for tak also characterise the wooden base.

fig. above: tak extendable table, 200 × 100 cm × 100 cm, wood type oak white oil | mylon wooden chair, wood type oak white oil

fig. left page: tak extendable table, 200 × 100 cm × 100 cm, wood type oak white oil | tak chair, wood type oak white oil, umbra natural leather
cubus pure occasional furniture allows plenty of scope for your own creativity: Glass surfaces in the colour of your choice, different wood types, various models in a range of heights, widths and depths – fitted with hinged doors, sliding doors or drawers and set on cubus pure slides or a recessed plinth.

A three-sided cover made of 4 mm thick coloured glass highlights the top-quality wood and coloured glass fronts in cubus pure. The fine glass edge and a recessed plinth make this piece of occasional furniture appear light and suspended.

Fig. above from l to r: cubus pure highboard, wood type venetian oak, glossy taupe glass | glossy curcuma glass | wood type walnut, glossy pebble glass.

Fig. right: cubus pure sideboard 31, wood type venetian oak, matt bronze glass.

Fig. below cubus pure sideboard 49, wood type wild oak, glossy dark brown glass.

fig. centre: cubus pure sideboard 31, wood type walnut, matt black glass, cubus pure slide with stainless steel finish.

fig. right: cubus pure sideboard 27, wood type walnut, interior wood type beech, matt pebble glass.
**magnum**

In addition to selecting various types of wood and glass colours, you can also choose to have high quality ceramic inserts for the **magnum** table. Perfectly coordinated: the **filigno** occasional furniture.

**figs.:** **magnum** extendable table, 200 × 100 + 100 cm, wood type oak, iron moss ceramic | **magnum** cantilever chair, beige Stricktex, frame with stainless steel finish

**filigno** sideboard 3, wood type oak, iron moss ceramic, **cubus pure** side with stainless steel finish

**magnum**

With ease, the **magnum** table can be extended up to 100 cm. It also boasts patented 2soft swivel mechanism.

**fig. above:** **magnum** extendable table, 200 × 100 + 100 cm, wood type walnut, glossy white glass | **magnum** cantilever chair, black Stricktex, glossy steel chrome-plated frame

**fig. below:** **magnum** extendable table, wood type walnut

You can find the video about the **magnum** table at [www.team7-design.com](http://www.team7-design.com) and on YouTube.
Our magnum cantilever chair is made of breathable Stricktex material that conforms to Öko-Tex standards and provides the utmost seating comfort. It is available in numerous colours and solid wood armrests.

Fig. above magnum cantilever chair black Stricktex, glossy steel chrome-plated frame
Fig. above right magnum cantilever chair with armrest, wood type walnut, dark grey melange Stricktex, matt steel chrome-plated frame
Fig. lower right magnum cantilever chair medium grey melange Stricktex, glossy steel chrome-plated frame
The top board and side walls made of only 12 mm-thin solid wood panels in a 3-layer technology add a delicate touch to our filigno occasional furniture. Fronts are available in solid wood, coloured glass and ceramic.
filigno

Genuine solid wood, shaped with precise and delicate craftsmanship, accentuates the modern design style of filigno occasional furniture. There are various options to choose from: pure wood, or wood in combination with other natural materials such as coloured glass or ceramic. Open design elements with LED-lighting emphasise the contemporary aesthetic.

fig. above: filigno highboard 3, wood type oak white oil, phedra ceramic
fig. left: filigno highboard 4, wood type oak white oil

filigno highboards can be fitted with functional interiors for glasses or small devices, including a dual power point and pull-out shelf. Both interiors are fitted with LED-lighting.

fig. above: filigno highboard 2 with interior for glasses, wood type oak, iron moss ceramic
fig. below: filigno highboard 1 with interior for small devices, wood type oak, matt dark brown glass
nox table | wood type walnut, palladium frame and magnum cantilever chair, anthracite leather, palladium frame
**BOX**

With its smooth extension and the gentle soft swivel mechanism, the nox table can grow by 60 or 120 cm in next to no time.

**BOX**

Impressive material thickness and rounded corners distinguish the nox table. The solid wooden panels guarantee stability and emphasise the robust nature of the nox non-extendable table. In the version with elegant metal slides, you can also select nox as an extendable table.

You can find the video about the nox table at [www.team7-design.com](http://www.team7-design.com) and on YouTube.

---

**fig. above:** nox extendable table, 225 × 100 + 120 cm, wood type wild walnut, palladium frame | nox bench with backrest, 225 cm, wood type walnut, anthracite leather, palladium frame | magnum cantilever chair, anthracite leather, palladium frame | nox sideboard 11, wood type walnut, palladium glass

**fig. right:** nox extendable table, 300 × 100 + 120 cm, wood type wild oak | nox bench, 300 cm, wood type oak, white leather | nox extendable table, 225 × 100 + 120 cm, wood type walnut, frame with stainless steel finish | nox bench with backrest, 225 cm, wood type walnut, blue leather, frame with stainless steel finish | magnum cantilever chair, blue leather, frame with stainless steel finish.
Our nox bench always ensures maximum seating comfort, with the shape, height, and depth of the backrest accommodating different seating positions. And to make sure that the person opposite you is just as comfortable, we recommend the magnum cantilever chair in leather. If desired, this is also available in fabric or with armrests made of solid wood.

fig. above: magnum cantilever chair with armrest, wood type walnut, taupe leather, glossy steel chrome-plated frame | magnum cantilever chair, taupe leather, glossy steel chrome-plated frame

fig. below: nox bench with armrest, 225 cm, wood type walnut, taupe leather, glossy steel chrome-plated frame

The nox sideboards and glass cabinets make an impression with their extremely thick and elegantly S-shaped corner joints. For the sideboards, you can choose between sliding doors made of solid wood or glass, or you could opt for drawers instead. The glass cabinets are offered in two different heights and widths.

fig. above: nox sideboard 9, wood type walnut, palladium glass
fig. left: nox sideboard 11, wood type walnut, palladium glass
fig. below: nox glass cabinet 2, wood type walnut, palladium glass
mylon table  wood type oak and evira chair, wood type oak, Canvas 136 fabric
mylon

The combination of a modern, stand-alone design and an attractive price makes our mylon table a perfect choice for any first-time TEAM 7 customer. A great match: the eviva chair.

You can find the video about the mylon table at www.team7-design.com and on YouTube.

mylon
mylon can be extended by up to 100 cm, to transform it from a cozy family table into a stately banquet table. Elegantly balanced design ensures that the mylon table looks good in smaller formats, with well-proportioned compactness, while in extended forms the flared legs emphasise its impressive span.

fig. mylon extendable table, 175 × 90 × 100 cm, woodtype beech heartwood | mylon wooden chair, wood type beech heartwood, Canvas 764 fabric (fig. linked)

The organically curved edges of the mylon table can also be found in the matching chair. Together with the sculpted backrest, made from a single piece of solid wood, they make the mylon chair particularly pleasing to handle.

fig. above from l to r: mylon wooden chair, woodtype walnut | woodtype oak white oil, black leather | woodtype oak white oil | woodtype beech heartwood, Canvas 764 fabric | woodtype cherry.

fig. right: mylon wooden chair, wood type beech heartwood, black leather.
flaye table

wood type: walnut, black-brown leather and aye chair, wood type: walnut, black-brown leather, Canvas 244 fabric
Thanks to revolutionary nonstop pull-out technology, the flaye table can be easily extended by 100 cm in one single movement. The table frame is available in leather or wood, with the organic curves visually blending together as a whole. The flaye non-extendable table is also available with a round table top.

You can find the video about the flaye table at www.team7-design.com and on YouTube.
Our aye chair is a perfect blend of beautiful form and comfort. Fine seams run precisely around the edges of the delicate upholstered chair. With its flexible backrest, its elastic seat, and optional ergonomic armrests, the aye chair is a very pleasant and comfortable seat.

fig. above: aye chair, wood type oak, taupe leather
fig. below: aye chair with armrest, wood type walnut, tartufo natural leather

aye offers enormous comfort as a swivel chair as well. Thanks to the special swivel and shock-absorbing mechanics, the chair gently rebounds when you sit down and automatically moves forward again when you stand up.

figs. above and below: aye chair with armrest, wood type oak, Canvas 734 and 736 fabric
fig. left: aye chair, wood type walnut, antique white and anthracite leather
girado table
wood type walnut, matt bronze glass, matt aluminum frame

girado chair
wood type walnut, taupe leather, matt aluminum frame
The elegant star base, available in glossy or matt aluminium, characterises the girado table. The centre leg offers maximum legroom, which can even be expanded with our comfortable 2soft extension: depending on the table shape, by 50, 60, or 100 cm.

You can find the video about the girado table at www.team7-design.com and on YouTube.
It could be the perfect setting to present your favourite pieces or used as flexible internal partitioning; our **cubus** and **cubus pure** occasional furniture offer the right storage solutions for any need.

*fig. above: cubus pure sideboard 33, wood type walnut, interior wood type beech, matt bronze glass*

*fig. left page: cubus glass cabinet 10, wood type walnut, glossy taupe glass, clear glass*
yps table

wood type walnut and yps bench, wood type walnut, antique white leather

ays chair, wood type walnut, antique white and anthracite leather
As in the base of the Yps table, the Y is presented as a perfect design element in the high-quality stitching of the Yps bench as well. The bench is available in a straight version or as a corner bench and its premium micro-pocket springs provide superior and lasting seating comfort.

Our Yps extendable table catches the eye with the same design principle as the Yps non-extendable table: angular, puristic, made completely of genuine, strong, solid wood. On one or both sides, Yps can be extended by 60 cm each, or equipped with either one or two cutlery drawers.

Yps table, 180 × 110 cm, wood type walnut | Yps corner bench, 249 cm, wood type walnut, sludge brown leather

Yps extendable table, 200 × 100 + 60 cm, wood type oak | Yps chair, wood type oak, black-brown leather

Yps extendable table, 200 × 100 + 40 cm, wood type oak
wood type: beech heartwood and beech heartwood, dark brown leather L3
loft

Its uncomplicated traditional design is characteristic of our loft table. It is available either as a non-extendable or an extendable table with patented soft swivel mechanism. The loft table also comes with the option of a convenient cutlery drawer.

Matching the loft table, the s1 chair has a timeless design with traditional craftsmanship. It is available in pure solid wood or as an upholstered version, with or without the upholstered backrest.

You can find the video about the loft table at www.team7-design.com and on YouTube.
**cubus**

The glass of the door of the **cubus** cabinet runs right around the corner, offering a generous view of the illuminated interior. Smoky glass, the darkened alternative to clear glass, makes the objects in the cabinet look particularly elegant.

Fig. left: **cubus** glass cabinet 20, wood type oak, smoky glass.

---

**cubus**

The 25 mm top board and side pieces of pure solid wood distinguish and unite the various elements in the **cubus** occasional furniture line.

Figs. centre and left: **cubus** sideboard 21, wood type oak.

---

**cubus**

The **cubus** shelf system offers a wide range of design options for occasional dining room furniture that is both stylish and functional. **cubus** makes it possible to use a consistent design style between dining and living areas, creating a particularly harmonious transition.

Fig. above: **cubus** shelf sideboard 75, wood type walnut, matt medium grey glass.

Fig. right: **cubus** shelf highboard 1, wood type oak, matt medium grey glass.
cubus pure wall unit | wood type oak white oil, matt medium grey glass
**cubus pure**

The **cubus pure** wall unit makes a particularly elegant impression in oak white oil. It features everything one might desire in modern, contemporary design: space for books and decorative accessories, enclosed storage spaces, and well-thought-out solutions for your home entertainment components.

**from one mould, interior in the wood type of the fronts upon request**

**LED-lighting, perfect light in our design elements**
solid wood cylinder, convenient stool or side table
cubus pure home entertainment, wood type oak, matt black and matt anthracite glass, light-grey acoustic fabric

The central design idea of the cubus pure living range consists of delicate coloured glass that envelops the fronts like a picture frame and has fine edges for a particularly elegant look.
cubus pure wall unit | wood type oak, matt white and matt medium grey glass, light-grey acoustic fabric
The **lift** coffee table allows continuously variable height adjustment up to dining table level. The optional electric adjustment mechanism is beautifully simple to operate.

*fig. left:* lift coffee table with drawer; electrically adjustable to any height from 39.7 cm to 79.7 cm, wood type oak white oil, glossy steel chrome-plated frame

*fig. above:* lift coffee table with drawer; height continuously adjustable from 39.5 cm to 79.5 cm, wood type oak, matt medium grey glass, glossy steel chrome-plated frame

You can find the video about the lift coffee table at [www.team7-design.com](http://www.team7-design.com) and on YouTube.

**design elements**

Different partitioning modules and a movable, leather-covered divider structure the interior of the design elements in a flexible and surprisingly simple way. The design elements can also be supplemented with dimmable LED-lighting upon request.

*figs.:* cubus pure wall unit with design elements, wood type oak, matt white glass, matt medium grey glass in rear board, medium grey leather

You can find the video about the design elements at [www.team7-design.com](http://www.team7-design.com) and on YouTube.
The body system of **cubus pure** can be planned individually, accommodating numerous heights, widths, and depths. Combined with flexible design elements or with the **cubus** shelf system and a great variety of wood types and glass colours, it offers virtually unlimited planning options.

fig. above: **cubus pure** wall unit 26, wood type oak white oil, matt pearl glass

fig. below left: **cubus pure** wall unit 19, wood type oak, glass wall unit matt dark brown, rear board in the design element of matt sludge glass, light-grey acoustic fabric
cubus pure home entertainment

You can find the video about cubus pure home entertainment at www.team7-design.com and on YouTube.
Our home entertainment furniture provides advanced technological solutions for all areas of home electronics. At its centre is an element made of solid wood that supports optimal acoustics and also meets all of the technical requirements of modern home entertainment units — whether as part of a wall unit, as standalone furniture, or as room divider. A specially developed subwoofer element ensures that the subwoofer remains unnoticed but is heard loud and clear.

### cubus pure | cubus

The LED-lighting of the cubus pure wall unit effectively presents the impressive TV-panel while your devices are ingeniously concealed behind the high-quality acoustic fabric of the speaker flaps. But you won’t want to hide our cubus room divider, which harmoniously integrates into any living space and, with its rotating column, conveniently lets you watch TV from all sides.

---

**fig. above:** cubus pure home entertainment, wood type walnut, matt pebble glass, beige acoustic fabric

**fig. right:** cubus home entertainment, room divider version, wood type walnut, matt pebble glass, beige acoustic fabric

**fig. above left:** cubus pure home entertainment, 130 x 37.4 x 57.8 cm (w x h x d), wood type walnut, matt anthracite glass, black acoustic fabric

**fig. centre right:** subwoofer cube, 51.2 x 45.4 x 57.4 cm (w x h x d), wood type oak, matt white glass, light-grey acoustic fabric

**fig. below:** cubus pure home entertainment, 200 x 53.4 x 57.8 cm (w x h x d), wood type wild oak, matt black glass, black acoustic fabric
**TV-mount**
The swivelling TV-mount always provides the right viewing angle and thus greater comfort while watching TV.

**Home cinema**
Behind the speaker flap, a special interior division offers room for all conventional sound bar systems or centre speakers. And to make sure none of the sound experience is lost, flaps are covered with high-quality acoustic fabric in beige, light-grey or black.

**TV-column**
The optional TV-column with an integrated cable duct is height-adjustable and rotates virtually 360°. In the wall element as well as the room divider, it enables a view of the TV from any place in the room.

**Wiring**
The cables are hidden away, well-ordered, easy to access from above, and can be neatly routed through several elements. Manufactured from natural, solid wood, the element helps ensure optimal acoustics.

**Ventilation**
A clever ventilation system keeps the equipment sufficiently cool. Integrated electric fans are also available as an option, which use a temperature sensor to prevent the equipment from overheating.
cubus wall unit | wood type walnut, matt taupe and matt bronze glass
The variety of the cubus living range is nearly unlimited and offers aesthetics and technically sound solutions for everybody. Of course it also features convenient details such as dampened sliding doors and drawers with flexible media dividers.

tgs. above: cubus wall unit 99a, wood type walnut, matt taupe and matt bronze glass

tg. right: cubus wall unit 99, wood type oak, matt taupe and matt white glass
cubus wall unit | wood type walnut, matt bronze glass
**cubus**

The possibilities of combining the body and shelf system make the cubus living line a true playground for your own creativity. The enormous variety enables individual configurations perfectly attuned to your needs and desires.

---

Fig. below: juwel coffee table round and oval, wood type oak, clear glass.

---

Fig. above: cubus wall unit, wood type walnut, matt bronze glass.

juwel coffee table, graceful wooden arms support a glass plate, suggesting the setting of a diamond ring.
cubus wall unit | wood type beech heartwood, matt brown glass
The cubus body system perfectly integrates into the shelf system and features impressive storage space that can be designed and used in a myriad of ways. Typical for cubus: the 25 mm-thick genuine solid wood top board.

fig. cubus wall unit, wood type beech heartwood, matt brown glass.

cubus

A wall unit that’s a pleasure to look at: with all-glass doors and LED-lighting behind them, the cubus shelf system offers room for displays – similar to a glass cabinet. And beneath it, cubus home entertainment lets you enjoy a perfect movie night.

fig. above: cubus wall unit 101b, wood type oak white oil, matt dark brown glass, smoky glass.
fig. right: cubus wall unit 101, wood type oak white oil, matt dark brown glass, smoky glass.
cubus shelf | wood type walnut, matt taupe glass, clear glass
Our cubus shelf system can be planned as desired in terms of width and height. Thanks to the combination of wood and glass shelving, together with the LED-spots and transparent all-glass doors, the shelves can be used simultaneously as a library and an illuminated display case.

Figs. above and right: cubus shelf, wood type walnut, matt taupe glass, clear glass.

You can find more info about the cubus shelf at www.team7-design.com and on YouTube.

convenient two-tier bookshelf, double storage space and better overview

cushioned sliding shelves, additional space for books and DVDs
Each **cubus** shelf is custom made, allowing you to plan everything individually: wood type, glass colour, dimensions, functions, format, and front design. For additional design flexibility, special dividing panels allow you to split the shelves any way you like, and to vary the spatial configuration by positioning shelves at different heights.

**figs. above and right:** cubus shelf, wood type oak, matt white glass, clear glass.

**fig. above left:** cubus shelf 10, wood type oak white oil, matt pearl glass.

**fig. below left:** cubus shelf 9, wood type walnut, matt bronze, matt dark brown and matt taupe glass.
hi!

This mobile and versatile side table can be used in many living areas. A distinguishing feature of hi! is that part of the base framework extends beyond the edge of the table top. This forms the anchor point for smart additions such as an LED-light, or can be used as a practical shoehorn holder. The table top is available in solid wood or clear glass.

figs. from l to r: hi! side table, wood type oak, white oil, leather piping and leather strap | with shoehorn, wood type oak, leather piping | wood type walnut, clear glass, leather strap | with reading light, wood type walnut, leather piping

shoehorn

Our shoehorn is available in the same wood types as the hi! side table, to ensure a perfect match.
**sidekick**

The innovative shape of the *sidekick* table playfully combines both design and convenience. You can lay it down as a practical coffee table or stand it up to make a sophisticated side table. To change its function, simply turn it over.

![sidekick](image)

---

**loup**

*loup* is a real all-rounder and wonderfully fits all living areas. The core design element consists of two rings connected by a bar. The table top insert can be selected in leather or coloured glass.

![loup](image)

---

**treeO**

The central design element of the *treeO* side table is the round hole in the solid wood tabletop. It lets you clearly see the elegant wooden joints and at the same time serves as a practical grip for easy handling. Two convenient heights and its mobility make it the perfect centrepiece for all living areas.

![treeO](image)
Whether free-standing or supported by two legs, **sol** is the perfect companion for all living areas. It is equally impressive as a stylish dressing table or as a smart standalone piece with an elegant, leather-covered rear panel.

**sol**

**sol** is a true all-rounder. An elegant, leather-covered extendable writing top reveals the many clever additional functions hidden inside. Dimmable LED-lighting in the optional attachment ensures plenty of light. A Stricktex tube bundles all loose cables together.

You can find the video about the **sol** solo piece at [www.team7-design.com](http://www.team7-design.com) and on YouTube.
atelier desk | wood type walnut
The atelier desk is height-adjustable from 68 to 81 cm, thereby enabling an ergonomic working position for people of any height. The cables conveniently disappear in the cable outlet of the table top and integrated cable tray. The practical cubus desk container offers useful storage space.

Fig. left: cubus desk container, wood type walnut, interior wood type beech
The *cubus* writing desk transforms itself from an elegant dresser into a complete home office and then really shows what it has to offer: an extendable desk top, a cleverly stowed keyboard, space for your laptop, and – in the version with a monitor lift – even a smoothly height-adjustable monitor.
cubus pure entry hall | wood type walnut, matt black glass
Whether it’s glass in the colour of your choice according to the NCS-system or wooden surfaces sorted by hand – you would be hard pressed to find a more beautiful welcome to your home than that of our customised cubus pure entry halls.

A nice message on the magnetic solid wood wall might make it even sweeter.

You can find the video about the cubus pure entry hall at www.team7-design.com and on YouTube.
Entry hall solutions that integrate completely into the room architecture offer not just a clear, minimal design but also enough storage space for clothes and shoes. Oak blocks enrich the entrance area with the tangible power of living wood and serve as convenient stools or storage surfaces.

**clothes hanger**

Made from a single piece of solid wood, our clothes hanger makes a highly sophisticated impression.

**hood+**

The two basic elements of *hood* can be linked by a rail to become *hood+*. With a width of 110 or 130 cm, this offers even more space to hang clothes.

haiku | cubus pure

Clever additions transform haiku into a space-saving entry hall piece that serves all important functions. The cubus pure flip-open shoe cabinet not only provides space for your shoes but also an extra storage surface and a useful bowl for keys.

haiku

haiku boasts an impressive range of versions and functions: it comes as a solid wood panel, a mirror and as a combination of both – either standing on the floor, mounted on the wall or leaning against the wall as a mirror. Optional indirect LED-lighting creates a pleasing ambience.

The entry hall is a place to arrive and take a deep breath – even in small spaces. Our solid wood block in oak white oil or smoked oak provides a truly unique place to sit down.

If desired, the elements can also be designed to hang on the wall. This gives you additional leeway for your layout and creates a light and airy impression in your entrance area.

WE LOVE WOOD

Pure solid wood makes our furniture unique and enriches your home in many ways. The beauty, texture, and warmth of wood are incomparable – and it’s a living material. We strive to preserve this authentic character of wood and use it to create timelessly beautiful furniture of the highest quality. And we have never built two furniture pieces that are the same – because no two trees are the same. Every tree carries its own history. With distinctive grain and characteristic marks, it gives our hand-sorted, wooden surfaces a truly unique appearance.

types of wood
Our solid wood furniture is not only pleasant to the touch – it also holds up well with daily use. Day-to-day cleaning just needs a dry or slightly damp cotton cloth.

The open-pore finish of our wooden surfaces means that even small dents or scratches can be easily treated. Even the traces of many years of use can be removed: sand it down, apply oil, and you're done. By the way, the solid wood furniture feels most comfortable at a constant humidity level of between 60% and 60%, and a room temperature of between 18° and 23° Celsius – just like us humans.

Starting in the development phase, we test the function, ergonomics, stability, and safety of our products comprehensively in our own laboratory, over thousands of cycles. Thus, by choosing TEAM 7, you buy only custom-made furniture with perfected technology and function.

The EMAS certificate is proof of our sustainable production, efficient use of resources, and the fact that we comply with the applicable environmental laws. As an ISO-certified company, we stand for the implementation of internationally applicable standards in the areas of environment, quality, and safety.

The Austrian ecolabel shows that the wood we use comes from sustainable forestry and contributes to a healthy living environment due to its special surface treatment. It is also a mark of high-quality products that excel in durability, serviceability, and safety and comfort in daily use.
